PUBLIC NOTICE

On April 23, 2021, the Federal Aviation Administration (FAA) initiated an environmental cleanup project at the former FAA facilities on lands managed by the United States Department of Agriculture Forest Service (USDA FS) on the eastern side of Big Level Island, AK (56.465788-133.094870). This project includes the excavation and offsite disposal of approximately 2,600 cubic yards (CYs) of impacted soils (hazardous and non-hazardous waste) associated with the former FAA landfill, former landfill burn and staging areas, and a former barge pipeline connection point. Further, this FAA onsite effort includes a subsurface investigation to delineate potentially impacted soils associated with former FAA housing and mission-supporting FAA mechanical shops. Hazardous substances associated with the project are subject to the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), and the National Contingency Plan (NCP). FAA is performing the Big Level Island cleanup activities in coordination and under regulatory oversight of the USDA FS and Alaska Department of Environmental Conservation (ADEC).

All waste generated during the project is containerized, appropriately characterized for disposal, and removed from the island on a weekly basis, or as required. Soil and other debris contaminated with hazardous and non-hazardous (petroleum) substances are being shipped to Columbia Waste Management and Columbia Ridge Landfill in Arlington, Oregon, respectfully. Lead-painted metal will be sent to the Petersburg Bailer Facility in Petersburg, Alaska, to be transported to a metal recycler in Seattle, Washington. Other non-hazardous waste is being shipped to the Petersburg, Alaska, Landfill.

In accordance with 40 CFR 300.820, the administrative record associated with this environmental cleanup effort on Big Level Island, AK, is available for public review and comment at the USFS Petersburg Ranger District Office located at 12 N. Nordic Drive, Petersburg, AK 99833. The Administrative Record includes the Time-Critical Removal Action Memorandum and the Work Plan governing the project in 2021. Because Forest Service offices are closed due to Covid-19, an appointment can be made by calling (907)-772-3871. A thirty-day comment period begins the date this notice is published. Comments can be sent to Linda Riddle, Alaska On-Scene Coordinator, USDA Forest Service, Room 549, P.O. Box 21628, Juneau, Alaska, 99801 or to linda.riddle@usda.gov.
